

Plumbing Intern

Job Type: Part-time
Salary: \$13.50/hr
Work Location: Kentucky Exposition Center, 937 Philips Lane, Louisville, KY 40209

Why should you apply?

Are you looking to advance and grow in the plumbing/pipefitter trade? Do you want to be a core part of the production of major area events? Are you a team player who is excited, curious and resourceful? Kentucky Venues is committed to producing shows of public importance and supporting local, regional and international clients in executing successful events. As a Plumbing Intern, you will join a small yet mighty team offering a real-world experience that will be invaluable to your future employment. If this is what you're looking for, then Kentucky Venues is looking for you!

Essential Functions (able to execute with/without reasonable accommodation):

- Assists Plumbers to inspect, troubleshoot and repair pipes, drains and conduit for running water and wastewater
- Assembles and transports necessary equipment to specific job locations on-site
- Performs minor plumbing repairs under supervision of Plumbers
- Communicates effectively, verbally and in writing, including use of a two-way radio
- Traverses facility space including stairs, ramps, escalators/elevators and heavily-occupied areas
- Bends, stretches and otherwise moves to perform duties; regularly moves objects weighing up to 50lbs
- Functions effectively in a moderate/high-pressure environment, according to a stringent schedule
- Adheres to Venue Values and service expectations
- Maintains professional and approachable demeanor, interacting graciously and with a sense of urgency

Work Environment and Hours:

- Office and event facility settings with moderate/high noise levels and dusty/dirty/greasy locations such as underground/basement levels
- Hours not to exceed 20 hpw; contingent on event scheduling; likely to include evenings, weekends, holidays
- Exposure to hot/cold/humid climates and elements such as livestock, hay, dirt/dust, and exhaust fumes
- Exposure to use of heavy/specialized tools, moving vehicles, mechanical equipment and cleaning chemicals

Desired Knowledge, Skills and Abilities:

- Basic knowledge of plumbing operatives and maintenance
- Skilled at applying general directives to specific scenarios to produce sound results or solutions
- Ability to use associated hand tools and equipment including shovels, wrenches and sewer equipment
- Ability to accurately take measurements and execute work to meet or exceed expectations
- Ability to actively listen – give full attention, understand what is being said and ask clarifying questions
- Ability to understand spoken and written English and convey clear and concise messages
- Ability to function effectively in moderate to high-pressure situations

Educational and Other Requirements:

- OSHA 10 certification a plus
- High school diploma or equivalent; vocational classes taken or school completion preferred
- Must be at least 18 years of age and authorized to work in the United States
- Must have access to reliable transportation to transport to work location on time for scheduled hours
- May be required to submit to background check
